Issue Date: 6th June, 2025

Standard Procurement Document

SUMMARY

PART I – SELECTION PROCEDURES AND REQUIREMENTS

Section 1: Request for Proposals (RFP) Letter

This Section is a template of a letter for a Request for Proposals from the Procuring Agency addressed to a shortlisted consulting firm inviting it to submit a proposal for a Primary Procurement to conclude a Framework Agreement. The RFP letter includes a list of all shortlisted firms to whom similar letters of invitation are sent, and a reference to the selection method and applicable Procurement Regulations for IPF Borrowers or policies of the financing institution that govern the selection and award process.

Section 2: Instructions to Consultants and Data Sheet

This Section consists of two parts: “Instructions to Consultants” and “Data Sheet”. “Instructions to Consultants” contains provisions that are to be used without modifications. “Data Sheet” contains information specific to each selection and corresponds to the clauses in “Instructions to Consultants” that call for selection-specific information to be added. This Section provides information to help consulting firms to prepare their proposals. It contains details on the submission, opening, and evaluation of proposals received during the Primary Procurement. It also provides an overview of the Secondary Procurement for the award of a Call-off Contract(s) once the Framework Agreement(s) is concluded. This is more fully described in the Framework Agreement.

Section 3: Technical Proposal – Standard Forms

This Section includes the forms that are to be completed by the shortlisted consultants and submitted in accordance with the requirements of Section 2. The technical proposal will provide the Experts and normally outline the methodology and allocation of resources. The methodology and allocation of resources at the framework agreement level is to demonstrate the consultants’ methodology and approach in carrying out typical assignments to be carried out under the Framework Agreement.

Section 4: Financial Proposal – Standard Forms

This Section includes the financial forms that are to be completed by the shortlisted consultants, including the consultant’s costing of its technical proposal, which are to be submitted in accordance with the requirements of Section 2. The Financial proposals will provide the remuneration rates of Experts (depending on the expected locations and timings of the assignments, there may be more than one expert for a position) and reimbursable unit rates which

will be subject to negotiation with the Consultants the Procuring Agency intends to enter into framework agreement/s.

Section 5: Eligible Countries

This Section contains information regarding eligible countries.

Section 6: Fraud and Corruption

This section includes the fraud and corruption provisions which apply to this selection process.

Section 7: Terms of Reference (TORs)

This Section includes the generic terms of reference that broadly provide the objectives, background information and as much information as practically possible on the planned assignments (such as expected scope, locations if known, typical estimated person months requirements, qualifications of key experts, expected typical deliverables) to enable the consultants to propose appropriate experts and show how they would organize and resource their teams. At the Primary Procurement, the TOR may be in broad terms but sufficiently accurate to ensure confidence of the market and enable competitive proposals. The assignment specific TORs may include evolving needs as long as the services remain within the scope defined in the generic TOR in the Primary Procurement.

PART II – FRAMEWORK AGREEMENT

This section includes the Notification of Intention to conclude a Framework Agreement(s) and the Notification to conclude a Framework Agreement (s). The section also sets out the provisions of the Framework Agreement and includes relevant schedules, including details of the Secondary Procurement.

2. Introduction

- 2.1 The Procuring Agency named in the **Data Sheet** intends to select a Consultant from those listed in the Request for Proposals (RFP), in accordance with the method of selection specified in the **Data Sheet**.
- 2.2 The shortlisted Consultants are invited to submit a Technical Proposal and a Financial Proposal, or a Technical Proposal only, as specified in the **Data Sheet**, for consulting services required for the assignment named in the **Data Sheet**. The Proposal will be the basis for negotiating and ultimately signing the Framework Agreement/s with the selected Consultant/s.
- 2.3 The Consultants should familiarize themselves with the local conditions and take them into account in preparing their Proposals, including attending a pre-proposal conference if one is specified in the **Data Sheet**. Attending any such pre-proposal conference is optional and is at the Consultants' expense.
- 2.4 The Procuring Agency will provide, at no cost to the Consultants, the inputs, relevant project data, and reports required for the preparation of the Consultant's Proposal as specified in the **Data Sheet**.

3. Conflict of Interest

- 3.1 The Consultant is required to provide professional, objective, and impartial advice, at all times holding the Client's interests paramount, strictly avoiding conflicts with other assignments or its own corporate interests and acting without any consideration for future work.
- 3.2 The Consultant has an obligation to disclose to the Procuring Agency and/or the Client, as the case may be, any situation of actual or potential conflict that impacts its capacity to serve the best interest of its Client. Failure to disclose such situations may lead to the disqualification of the Consultant or the termination of its Framework Agreement and Call-off Contract (if awarded) and/or sanctions by the Bank.

3.2.1 Without limitation on the generality of the foregoing, the Consultant shall not be hired under the circumstances set forth below:

a. Conflicting Activities

(i) Conflict between consulting activities and procurement of goods, works or non-consulting services: a firm that has been engaged by the Procuring Agency or the Client, as the case may be, to provide goods, works, or non-consulting services for a project, or any of its Affiliates, shall be disqualified from providing consulting services resulting from or directly related to those goods, works, or non-consulting services. Conversely, a firm hired to provide consulting services for the preparation or implementation of a project, or any of its Affiliates, shall be disqualified from subsequently providing goods or works or non-consulting services resulting from or directly related to the consulting services for such preparation or implementation.

b. Conflicting Assignments

(ii) Conflict among consulting assignments: a Consultant (including its Experts and Sub-consultants) or any of its Affiliates shall not be hired for any assignment that, by its nature, may be in conflict with another assignment of the Consultant for the same or for another Client.

c. Conflicting Relationships

(iii) Relationship with the Procuring Agency's or Client's staff: a Consultant (including its Experts and Sub-consultants) that has a close business or family relationship with a professional staff of the Borrower (or of the Procuring Agency, Client, or of the project implementing agency, or of a recipient of a part of the Bank's financing) who are directly or indirectly involved in any part of (i) the RFP or preparation of the Terms of Reference for the Framework Agreement or Call-off Contract, (ii) the selection process for the Framework Agreement or Call-off Contract, or (iii) the implementation or supervision of the Framework Agreement or Call-off Contract, may not be able to conclude a Framework Agreement or be awarded a Call-off Contract, unless the conflict stemming from this relationship has been resolved in a manner acceptable to the Bank throughout the selection process and the execution of the Framework Agreement and/or Call-off Contract.

4. Unfair Competitive Advantage

4.1 Fairness and transparency in the selection process require that the Consultants or their Affiliates competing for a specific assignment do not derive a competitive advantage from having provided consulting services related to the assignment in question. To that end, the Procuring Agency shall indicate in the **Data Sheet** and make available to all shortlisted Consultants together with this RFP all information that would in that respect give such Consultant any unfair competitive advantage over competing Consultants.

5. Fraud and Corruption

5.1 The Bank requires compliance with the Bank's Anti-Corruption Guidelines and its prevailing sanctions policies and procedures as set forth in the WBG's Sanctions Framework, as set forth in Section 6.

5.2 In further pursuance of this policy, Consultants shall permit and shall cause their agents (where declared or not), subcontractors, subconsultants, service providers, suppliers, and personnel, to permit the Bank to inspect all accounts, records and other documents relating to any shortlisting process, Proposal submission, Primary Procurement, Framework Agreement performance, Secondary Procurement, and/or Call-off Contract performance (in the case of award of a Call-off Contract), and to have them audited by auditors appointed by the Bank.

6. Eligibility

6.1 The Bank permits consultants (individuals and firms, including Joint Ventures and their individual members) from all countries to offer consulting services for Bank-financed projects.

6.2 Furthermore, it is the Consultant's responsibility to ensure that its Experts, joint venture members, Sub-consultants, agents (declared or not), sub-contractors, service providers, suppliers and/or their employees meet the eligibility requirements as established by the Bank in the applicable Procurement Regulations.

6.3 As an exception to the foregoing ITC 6.1 and ITC 6.2 above:

a. Sanctions

6.3.1 A Consultant that has been sanctioned by the Bank, pursuant to the Bank's Anti-Corruption Guidelines and in accordance with its prevailing sanctions policies and procedures as set forth in the WBG's Sanctions Framework as described in Section VI, Fraud and Corruption, paragraph 2.2 d., shall be

ineligible to be shortlisted for, submit proposals for, or conclude a Bank-financed Framework Agreement or Call-off Contract or benefit from a Bank-financed Framework Agreement or Call-off Contract, financially or otherwise, during such period of time as the Bank shall have determined. The list of debarred firms and individuals is available at the electronic address specified in the **Data Sheet**.

b. Prohibitions

6.3.2 Firms and individuals of a country or goods manufactured in a country may be ineligible if so indicated in Section 5 (Eligible Countries) and:

- (a) as a matter of law or official regulations, the Borrower's country prohibits commercial relations with that country, provided that the Bank is satisfied that such exclusion does not preclude effective competition for the provision of Services required; or
- (b) by an act of compliance with a decision of the United Nations Security Council taken under Chapter VII of the Charter of the United Nations, the Borrower's Country prohibits any import of goods from that country or any payments to any country, person, or entity in that country.

c. Restrictions for State-Owned Enterprises

6.3.3 State-owned enterprises or institutions in the Borrower's country may be eligible to compete and conclude a Framework Agreement or be awarded a Call-off Contract(s) only if they can establish, in a manner acceptable to the Bank, that they: (i) are legally and financially autonomous, (ii) operate under commercial law, and (iii) are not under supervision of the Procuring Agency, Responsible Agency or a Client.

d. Restrictions for Public Employees

6.3.4 Government officials and civil servants of the Borrower's country are not eligible to be included as Experts, individuals, or members of a team of Experts in the Consultant's Proposal unless:

- (i) the services of the government official or civil servant are of a unique and exceptional nature, or their participation is critical to project implementation; and

- (ii) their hiring would not create a conflict of interest, including any conflict with employment or other laws, regulations, or policies of the Borrower.

**e. Borrower
Debarment**

6.3.5 A firm that is under a sanction of debarment by the Borrower from being awarded a contract is eligible to participate in this procurement, unless the Bank, at the Borrower's request, is satisfied that the debarment; (a) relates to fraud or corruption, and (b) followed a judicial or administrative proceeding that afforded the firm adequate due process.

B. Preparation of Proposals

**7. General
Considerations**

7.1 In preparing the Proposal, the Consultant is expected to examine the RFP in detail. Material deficiencies in providing the information requested in the RFP may result in rejection of the Proposal.

**8. Cost of
Preparation of
Proposal**

8.1 The Consultant shall bear all costs associated with the preparation and submission of its Proposal, and the Procuring Agency shall not be responsible or liable for those costs, regardless of the conduct or outcome of the selection process. The Procuring Agency is not bound to accept any proposal, and reserves the right to annul the selection process at any time prior to the conclusion of a Framework Agreement(s), without thereby incurring any liability to the Consultant.

9. Language

9.1 The Proposal, as well as all correspondence and documents relating to the Proposal exchanged between the Consultant and the Procuring Agency, shall be written in the language(s) specified in the **Data Sheet**.

**10. Documents
Comprising the
Proposal**

10.1 The Proposal shall comprise the documents and forms listed in the **Data Sheet**.

10.2 If specified in the **Data Sheet**, the Consultant shall include a statement of an undertaking of the Consultant to observe, in competing for and executing a Framework Agreement and Call-off Contract, the Borrower's country's laws against fraud and corruption (including bribery).

10.3 The Consultant shall furnish information on commissions, gratuities, and fees, if any, paid or to be paid to agents or any other party relating to this Proposal, Framework Agreement and, if awarded, Call-off Contract execution,

as requested in the Financial Proposal submission form (Section 4).

11. Only One Proposal

- 11.1 The Consultant (including the individual members of any Joint Venture) shall submit only one Proposal, either in its own name or as part of a Joint Venture in another Proposal. If a Consultant, including any Joint Venture member, submits or participates in more than one proposal, all such proposals shall be disqualified and rejected. This does not, however, preclude a Sub-consultant, or the Consultant's staff from participating as Key Experts and Non-Key Experts in more than one Proposal when circumstances justify and if stated in the **Data Sheet**.

12. Proposal Validity

- 12.1 Proposals shall remain valid until the date specified in the **Data Sheet** or any extended date if amended by the Procuring Agency in accordance with ITC 13.1.1.

- 12.2 During this period, the Consultant shall maintain its original Proposal without any change, including the availability of the Key Experts, the proposed rates and the total price.

- 12.3 If it is established that any Key Expert nominated in the Consultant's Proposal was not available at the time of Proposal submission or was included in the Proposal without his/her confirmation, such Proposal shall be disqualified and rejected for further evaluation, and may be subject to sanctions in accordance with ITC 5.

a. Extension of Proposal Validity

- 12.4 The Procuring Agency will make its best effort to complete the negotiations and conclude the Framework Agreement prior to the date of expiry of the Proposal validity. However, should the need arise, the Procuring Agency may request, in writing, all Consultants who submitted Proposals prior to the submission deadline to extend the Proposals' validity.

- 12.5 If the Consultant agrees to extend the validity of its Proposal, it shall be done without any change in the original Proposal and with the confirmation of the availability of the Key Experts, except as provided in ITC 12.7.

- 12.6 The Consultant has the right to refuse to extend the validity of its Proposal in which case such Proposal will not be further evaluated.

- b. Substitution of Key Experts at Validity Extension**
- 12.7 If any of the Key Experts become unavailable for the extended validity period, the Consultant shall seek to substitute another Key Expert. The Consultant shall provide a written adequate justification and evidence satisfactory to the Procuring Agency together with the substitution request. In such case, a substitute Key Expert shall have equal or better qualifications and experience than those of the originally proposed Key Expert. The technical evaluation score, however, will remain to be based on the evaluation of the CV of the original Key Expert.
- 12.8 If the Consultant fails to provide a substitute Key Expert with equal or better qualifications, or if the provided reasons for the replacement or justification are unacceptable to the Procuring Agency, such Proposal may be rejected.
- c. Sub-Contracting**
- 12.9 The Consultant shall not subcontract the whole of the Services.
- 13. Clarification and Amendment of RFP**
- 13.1 The Consultant may request a clarification of any part of the RFP during the period indicated in the **Data Sheet** before the Proposals' submission deadline. Any request for clarification must be sent in writing, or by standard electronic means, to the Procuring Agency's address indicated in the **Data Sheet**. The Procuring Agency will respond in writing, or by standard electronic means, and will send written copies of the response (including an explanation of the query but without identifying its source) to all shortlisted Consultants. Should the Procuring Agency deem it necessary to amend the RFP as a result of a clarification, it shall do so following the procedure described below:
- 13.1.1 At any time before the proposal submission deadline, the Procuring Agency may amend the RFP by issuing an amendment in writing or by standard electronic means. The amendment shall be sent to all shortlisted Consultants and will be binding on them. The shortlisted Consultants shall acknowledge receipt of all amendments in writing.
- 13.1.2 If the amendment is substantial, the Procuring Agency may extend the proposal submission deadline to give the shortlisted Consultants reasonable time to take an amendment into account in their Proposals.

- 13.2 The Consultant may submit a modified Proposal or a modification to any part of it at any time prior to the proposal submission deadline. No modifications to the Technical or Financial Proposal shall be accepted after the deadline.
- 14. Preparation of Proposals Specific Considerations**
- 14.1 While preparing the Proposal, the Consultant must give particular attention to the following:
- 14.1.1 If a shortlisted Consultant considers that it may enhance its expertise for the assignment by associating with other consultants in the form of a Joint Venture or as Sub-consultants, it may do so with either (a) non-shortlisted Consultant(s), or (b) shortlisted Consultants if permitted in the **Data Sheet**. In all such cases a shortlisted Consultant must obtain the written approval of the Procuring Agency prior to the submission of the Proposal. When associating with non-shortlisted firms in the form of a joint venture or a sub-consultancy, the shortlisted Consultant shall be a lead member. If shortlisted Consultants associate with each other, any of them can be a lead member.
- 15. Technical Proposal Format and Content**
- 15.1 The Technical Proposal shall be prepared using the Standard Forms provided in Section 3 of the RFP. The Technical Proposal shall not include any financial information. A Technical Proposal containing material financial information shall be declared non-responsive.
- 16. Financial Proposal**

Section 7. Terms of Reference

I. Background

The Capacity Building Commission (CBC), established under the National Programme for Civil Services Capacity Building (NPCSCB), plays a crucial role in transforming the governance landscape in India. The programme aims to prepare Indian civil servants for the future by making them more creative, proactive, professional, energetic, transparent and technology enabled.

CBC is mandated to perform the following key functions:

- Coordinate with Departments, Organizations and Agencies of the Government of India for evolving a harmonious de-siloed approach to improve capacity and build shared resources.
- Facilitate preparation of Capacity Building Plans of Departments, Ministries and participating Organizations and submit the collated Plans for approval to the Prime Minister's Public Human Resource Council (PMHRC). The Commission will thereafter monitor and report the periodical progress of implementation to the Government.
- Prepare the Annual HR Report on the health of Civil Services along with target achievement; and make it public with the approval of the DoPT.
- Undertake Audit of Human Resources available in Government and assess outcomes of the Capacity Building efforts; and present an evaluation of the same for approval and necessary guidance to the Cabinet Secretariat Coordination Unit.
- Make recommendations on standardization of training and capacity building, pedagogy and methodology including coordination with Government Training Institutions to carry out research on pedagogy, competency framework, competency gap assessment etc.
- Make recommendations on policy interventions in areas of personnel/HR and Capacity Building to DoPT.
- Undertake analysis of data emit from iGOT-Karmayogi pertaining to different aspects of capacity building such as content creation, competency mapping, feedback etc.
- Holding the Annual Global Public HR Summit under the overall guidance of the Prime Minister's Public Human Resource Council (PMHRC) and the Cabinet Secretariat Coordination Unit and preparing the outcome and output report of the Summit.
- Providing all the relevant information to DoPT for purposes of Parliamentary oversight and Comptroller and Auditor General compliance.
- Exercise functional supervision over Institutions engaged in the imparting of training to all Civil Servants, for purposes of adherence to and achievements of capacity building plans; and the creation of an ecosystem of shared learning resources including shared internal and external faculty.
- Approve Knowledge Partners for the programme. While the Commission discharges its functions for the Union Government, it also has a mandate to utilize its knowledge in supporting Ministries in developing and devising capacity building initiatives that can be taken up by States and local Governments through mutual understanding and agreement.

This visionary initiative, led by Hon'ble Prime Minister, is aimed at transforming and reinforcing the capacity-building framework within the Indian bureaucracy. By equipping civil

servants with the necessary skills, knowledge, and mindset, the program seeks to enhance governance and contribute to national development. The initiative aligns with the Prime Minister's vision for a reformed civil service that can meet the challenges of a rapidly evolving nation. The Annual Capacity Building Plan (ACBP) is grounded in the philosophy of creating an ecosystem of "competency-driven training and human resource management."

In alignment with the Prime Minister's vision for New India by 2047, CBC is playing a pivotal role in driving standardization and harmonization across India's civil services. It has developed India's own Civil Service Competency Framework to prioritize the nation's development goals. By focusing on competency-based learning rather than rule-based learning, the CBC aims to create an ecosystem that fosters accountability, transparency, and effective public service delivery. This approach is designed to equip civil servants with the competencies needed to design policies that promote economic growth and improve service delivery to citizens.

CBC has already prepared ACBPs for various National MDOs, providing a blueprint for civil servants to enhance their competencies. These efforts have proven beneficial in improving the skills and capabilities of civil servants, enabling them to effectively contribute to governance and national development. CBC has structured the preparation of the ACBP through three lenses: National Priorities, Citizen Centricity, and Emerging Technology. These lenses are supported by three guiding pillars: Individual, Organizational, and Institutional. The Capacity Building Plan (CBP) is developed based on the competency needs identified through Competency Need Analysis (CNA), ensuring that the most relevant competencies are prioritized for officials within each ministry or department. This approach optimizes the resources invested by MDOs in capacity building, ensuring that the training programs are effective and aligned with national objectives.

The Commission has now planned to expand its mandate to state level, aligning with the objectives of Mission Karmayogi. This initiative will enhance the skills, knowledge, and efficiency of state officials, promoting better governance and improved public service delivery. The CBC will work in close coordination with States to facilitate the preparation of relevant Capacity Building Plans (CBPs). These plans are designed to ensure a targeted, systematic, and measurable approach to strengthening the capacity of state government employees

II. Objectives

The ToR aims to ensure the successful development and implementation of CBPs at State level Ministry/ Department/ Organization (MDO)/ or state . The specific objectives of the ToR are:

1. **Develop Capacity Building Plans (CBPs):** To create structured plans that align with the strategic priorities of the MDOs and address capacity-building needs.
2. **Ensure Alignment with Mission Karmayogi:** To align MDO/ state-level capacity-building initiatives with national governance reforms, enhancing public service delivery and governance.
3. **Promote a Comprehensive Approach:** To adopt a holistic approach to capacity building by focusing on efficiency, governance, technological adaptation, and the Sustainable Development Goals (SDGs).

4. **Build Shared Resources and Knowledge Networks:** To foster the creation of shared learning resources, collaborative networks, and inter-departmental coordination.

In alignment with the broader objectives of enhancing the efficiency and effectiveness of each M/D/O and state government employees, the CBC intends to empanel qualified agencies to assist MDOs and state authorities in the development of State level CBPs. The initiative aims to build a competent, well-equipped workforce capable of driving governance reforms, fostering sustainable development, and delivering quality public services.

For this purpose, four distinct groups have been carved out based on functional domains across a State or MDO. Each group represents a specific area of governance, encompassing critical sectors that directly impact on the socio-economic development and welfare of the population. The following groups have been identified for the preparation of CBPs, with each group requiring specialized capacity-building interventions tailored to specific needs:- (However, this does not restrict the award of work for any other state, for which the states can decide themselves.)

Group Name/ Categories	Department Domains/ Categories
Group A (Social Sectors)	Education
	Health
	Labour
	Rural Development / Panchayati Raj
	Skill Development
	Social Welfare
	Women & Child Development
	Youth Affairs & Sports
Group B (Agriculture & Environment)	Agriculture, Horticulture & Marketing
	Animal Husbandry & Dairy
	Environment and Pollution
	Fisheries
	Cooperation
	Water Resources/ Irrigation
Group C (Infrastructure & Economy)	Energy, Electricity, Renewables and Power
	Housing
	Industries
	Tourism
	Public Works
	Transport
	Urban Development

Group D (Governance & Administration)	General Administration
	Home
	IT & Electronics
	Planning and Economic
	Excise and Finance
	Revenue and Relief

The capacity building exercise would be goal oriented. That is, it would first identify specific objectives to be achieved through a Capacity Building Plan. CBC suggests three overarching lenses to help identify goals of a CBP:

A. Three Lenses of Capacity Building

- (i) **National/ State Priorities** – The lens of National Priorities examines how the MDO or state government department/ organisation ‘Vision, Mission, and Goals’ are aligned with National and state Priorities with a 3-year, 5-year, and 10-year focus. Once the alignment and the priorities of these goals are identified, the next step is to identify key capacity gaps in achieving said goals. Overcoming specific constraints then becomes one of the key goals of a Capacity Building Plan.
- (ii) **Emerging Technologies** – This lens looks at the key technology trends that impact the sector that relates to the functioning of the government department/ organisation and identify the challenges and opportunities therein.
- (iii) **Citizen Centricity** – The third lens of capacity building looks at the government department/ organisation’s key citizen centric governance objectives such as transparent and efficient public service delivery, stability and continuity of various citizen centric schemes, smooth and effective grievance redressal mechanisms, participatory governance et cetera.

B. Three Pillars of Capacity Building

The Capacity Building Plan must clearly indicate capacity building interventions at the Individual, Organizational, and Institutional level.

(i) Individual Capacity Building

At the individual level, three kinds of competencies are of interest for capacity building of individuals:

- **Domain Knowledge** – This is the knowledge an individual possesses of the domain where he/she functions. For example, knowledge of Economics, Finance, Infrastructure, Social Sciences for individuals working in respective domains would increase the efficiency and efficacy of their work.
- **Functional Skills** – These are the competencies that cut across different work streams. These skills can be organization management, research, information management, communication, etc.
- **Behavioral Attitudes** – These encompass attitudes that influence the way an individual behaves in their work environment. For example, empathy, leadership, crisis management, et cetera.

(ii) Organizational Capacity Building

At an organizational level, capacity building happens by creating new or tweaking already existing systems and processes. For example,

- Knowledge Management for institutional memory
- Data-driven policy decision making
- Resource Planning
- Process Improvement
- Incentives for capacity building

(iii) Institutional Capacity Building

For Capacity Building to not be a one-off instance of change, it must be **institutionalized** within the department both formally (rules, policies, orders) and informally (traditions, attitudes, code of conduct). Institutionalizing is a crucial point in the capacity building process to ensure that capacities are developed continuously over the years.

CBC intends to institutionalize Capacity Building within the state government department/ organisation by setting up a Capacity Building Unit (CBU) which will assist in creating and implanting their Capacity Building Plan in close association with the Commission. This CBU will consist of manpower resources from the department, supported by specialist manpower empanelled by the Commission.

C. CBC's approach to creating Capacity Building Plans

A consultative approach is followed to identify the strategic direction for developing a capacity building plan. These consultations are further supported by a detailed review of the state government department/ organization's mandate, functions, role & responsibility. The table below highlights the key steps followed in the development of this road map.

Table 1: Process for developing Capacity Building Plan

<p>Step 1:</p> <p><i>Alignment of objective with the DO/ state government department/ organization</i></p>	<p>As the first step, a joint meeting between the Head of Department (HoD) or Head of Organization (HoO) is to be conducted. In the meeting the mandate & the objective of the organization is to be clearly articulated along with the concerned department's organizational vision. It should be clarified that the framework of CBC is not limited to training but also includes organizational and institutional capacity development. In this meeting, the state government department/ organization's expectation from the program should also be clearly identified.</p>
<p>Step 2:</p> <p><i>Understanding the role & function of the state</i></p>	<p>Following the meeting, team shall conduct a thorough review of the following areas:</p> <ul style="list-style-type: none"> • DO/ State government department/ organisation's mandate, policies, roles, functions, recent developments and trendlines

<p><i>government department/ organisations</i></p>	<p>from the website, portals and documents, web search and study reports</p> <ul style="list-style-type: none"> • State Government department/ organisation's key programs, priorities, strategic objectives and goals, emerging trends/ focus areas • National priorities and how state government department/ organisation fulfils/ contributes to same
<p>Step 3:</p> <p><i>Comprehend role & responsibility of each department/division/ wing/unit of the state government department/ organisation</i></p>	<p>Team should also have a clear and complete understanding of the following areas for each division/ unit.</p> <ul style="list-style-type: none"> • Identify the areas of responsibility of the division/unit • Understand/ identify emerging trends, government priorities and Ministry objectives that fall within purview of division/unit • Understand specific schemes/programmes managed by division/unit
<p>Step 4:</p> <p><i>Consultation with the department head</i></p>	<p>Team to conduct multiple consultations with the Head of Department to understand the following areas:</p> <ul style="list-style-type: none"> • Entire spectrum of roles and responsibilities, functions and activities undertaken by each unit and the priority and frequency of respective activities • Interrelationships with other units within the state government department/ organisation's and coordination/ cooperation with government agencies outside the state government department/ organisation's and the larger set of stakeholders the unit engages with for each functional responsibility • Current and emerging trends and future possibilities and how it could impact the role and functioning of the unit • Understand the broad staffing structure and operational practices adopted by the unit to deliver outputs and outcome <p>Apart from getting a comprehensive understanding of the roles and responsibility of each department, consultation to be held with the departments to understand:</p> <ul style="list-style-type: none"> • The competency required to execute the key functions of the department

	<ul style="list-style-type: none"> • Identify the competency gaps as per the experience of the head of the department • Discuss current organizational practices and institutional mechanisms to address competency deficits, and ongoing capacity building and training initiatives
Step 5: <i>Situational analysis and key findings</i>	For the identified gaps, identify the key interventions that the state government department/ organisation can undertake. This may include training or other non-training interventions.

III. Scope of Work

The consultant/agency will be responsible for guiding and assisting the departments in the preparation of their CBPs, ensuring that the plans are in line with the mission and goals outlined by the CBC. The ***Scope of Work*** will include the following:

1. **As-is assessment of the department to develop a capacity building agenda**

(The intended output is a document detailing department's vision, mission, and goals. The document will baseline the department's capacity-building needs and gaps). The below mentioned activities will be identified post discussion with department's senior leadership.

- Mapping the Roles of the department
- Sectoral technology roadmap
- Citizen centric goals
- Identify department's legacy capacity building programs

2. **As-is assessment of the training needs of employees and identification of potential interventions**

(The intended output is a current and futuristic Training Needs Assessment (TNA), which would be used for planning of training and non-training interventions)

- Review of organizational structure in detail up-to the lowest department functionary
- Competency assessment across lines of services
- Identify training and non-training interventions that address Domain, Functional (mandatory) and Behavioural (as and when required) competency gaps and requirements of the department

3. **As-is assessment of enabling environment at the organization level.**

(The intended output is identification of organizational capacity gaps for key systems and processes and subsequent capacity building interventions to build organizational capacity)

- Identification of processes and procedural barriers in consultation with division/cell heads

 - Assess the capacity of the organizational structure.
4. **Blueprint for Capacity Building vision and roadmap for implementation**
(The intended output is a Capacity Building Plan. The operational plan for executing the Capacity Building Plan will be a comprehensive roadmap for building individual and organizational capacities for the department with specific interventions clearly identified and scoped)
- Outline capacity development objectives
 - Develop strategy for building capability to meet department goal
 - Develop Strategy for training and development of staff
 - Strategy for enabling department procedures and processes:
 - Annual Training calendar tailored to meet the competency needs of the department
 - Design a monitoring and evaluation framework that is contextual to department

IV. Schedule for Deliverables and Timelines

- Deliverable 1: As-is assessment of the department to develop a capacity building agenda
- Deliverable 2: As-is assessment of the training needs of employees and identification of potential interventions
- Deliverable 3: Draft Capacity Building Plan with a roadmap for implementation
- Deliverable 4: Capacity Building Plan along with the yearly training calendar
- Deliverable 5: Hand holding the Department for completion of identified training interventions for 20% of proposed staff strength identified to undergo training

V. Scope of Services for implementation of Capacity Building Plan (CBP)-lite

The empanelled agencies may also require implementing the **CBP Lite** across various Ministries, Departments, and Organizations (MDOs) or state as per the guidance of the CBC. The ACBP or CBP Lite will be lighter or quicker version where department would like to implement the capacity building plan quickly or within small department.

Annual Capacity Building Plan (ACBP) Lite is a streamlined, fast-track version of the full-fledged ACBP, designed to quickly implement competency-based capacity-building initiatives for government officials in small departments, niche ministries, or in time-sensitive situations. Unlike the standard ACBP, which involves a comprehensive, long-term assessment and planning process, ACBP Lite focuses on rapid execution, identifying core functional, behavioral, and domain-specific competency gaps through a simplified Capacity Needs Assessment (CNA). It enables Ministries, Departments, and Organizations (MDOs) to develop

and roll out designation-wise training calendars efficiently, ensuring that critical skills and knowledge are imparted without delay. The approach leverages existing digital learning platforms like My iGOT, blending short-term interventions, workshops, e-learning modules, and mentorship programs to create an agile and scalable model for capacity-building. ACBP Lite serves as an entry point for smaller organizations or those seeking a pilot model before scaling to a full-fledged ACBP, thereby aligning with Mission Karmayogi's vision of continuous, adaptive learning for public sector transformation.

The empanelled agencies will assist MDOs in developing, executing, and monitoring Annual Capacity Building Plans (ACBPs) through a structured and competency-driven approach.

1. Objectives of the Assignment

The selected agencies will be responsible for:

- i. Supporting MDOs in implementing ACBP Lite by facilitating structured competency-based capacity-building initiatives.
- ii. Conducting Capacity Needs Assessments (CNA) to identify gaps in functional, behavioral, and domain-specific competencies of government officials.
- iii. Developing designation-wise training calendars based on competency gaps, ensuring alignment with national priorities and Mission Karmayogi goals.
- iv. Integrating ACBP Lite with digital learning platforms such as My iGOT for seamless execution and monitoring.
- v. Strengthening institutional capacity-building efforts by supporting MDOs in forming Capacity Building Units (CBUs) and equipping them with methodologies for effective implementation.
- vi. Ensuring ongoing monitoring, evaluation, and refinement of capacity-building initiatives through structured feedback mechanisms.

2. Scope of Work

The selected agencies will work in close coordination with CBC and the respective MDOs to develop and implement ACBP Lite, following a structured two-phase approach:

Phase 1: Capacity Needs Assessment & Planning

2.1 Formation of Capacity Building Units (CBUs)

- Assist MDOs/ state in establishing a Capacity Building Unit (CBU) as the nodal body responsible for capacity-building efforts.
- Conduct orientation sessions to equip CBUs with knowledge of ACBP Lite implementation.

2.2 Conducting Capacity Needs Assessment (CNA)

- Engage with Division/Bureau Heads and stakeholders to assess organizational priorities.
 - Deploy CNA tools (Google Forms, surveys, focus groups, etc.) to collect competency requirements for different roles.
-

- Identify competency gaps across three dimensions:
 - Behavioral Competencies (e.g., leadership, communication, adaptability)
 - Functional Competencies (e.g., project management, financial management, procurement)
 - Domain-Specific Competencies (e.g., logistics, AI in medicine, climate resilience, cybersecurity)

2.3 Competency Gap Analysis & Documentation

- Analyze CNA data to map competency requirements with relevant training and non-training interventions.
- Provide a structured report highlighting priority competency needs and interventions required.

Phase 2: Training Calendar & Execution

2.4 Development of Designation-Wise Training Calendar

- Based on CNA findings, develop a designation-wise training calendar using CBC's standardized framework.
- Ensure a balanced approach covering:
 - Short-term & long-term training interventions
 - Blended learning models (classroom training + e-learning)
 - Functional, behavioral, and domain-specific competencies

2.5 Integration with My iGOT Digital Platform

- Upload finalized training plans onto My iGOT for tracking and centralized access.
- Ensure alignment of training interventions with My iGOT's competency-based learning framework.

2.6 Documentation & Finalization of ACBP Lite

- Prepare a concise ACBP document summarizing identified competencies, training needs, and execution strategies.
- Establish a structured repository of training resources to ensure continuity in future capacity-building initiatives.

3. Monitoring & Evaluation (M&E) Framework

- Develop a monitoring and evaluation (M&E) system to assess the impact of capacity-building interventions.
- Establish KPIs and success metrics to track learning outcomes and competency improvements.
- Provide quarterly progress reports to CBC and MDOs on ACBP implementation status.
- Use feedback mechanisms to refine training methodologies based on real-time data insights.

4. Expected Deliverables

This is the primary RFP process for empanelment of agencies/ consultants followed by signing of Framework Agreement. The work order for implementation of project shall be awarded after the secondary RFP process, which will be conducted among empaneled agencies for the exact scope of work and name of M/D/O/state for the designing and development of CBP as per process defined in the RFP.

VII. Team Qualifications and Competence for the Assignment

- (i) competitive proposals through mini-competition [Least Cost Selection (LCS)]
 - a. **The upper limit of rate of experts and technical resources as specified above shall be fixed in the framework agreement of each agency. The agency can apply for secondary RFP and free to quote equal or less than the ceiling rates defined in Framework Agreement and total man month cost based on the actual need of specific assignment.**
 - b. **Selection for work orders will be based on technical and financial evaluation based on the LCS (Least Cost Selection) or any other method of procurement and evaluation criteria defined in the secondary RFP, as decided by the purchaser.**
- (ii) However, Client at its own discretion, without incurring any liabilities, may choose to adopt other selection methods as specified in the World Bank Procurement Regulation.

The evaluation of qualifications of Experts that may be needed during the Term of the Framework Agreement, and the proposed approach and methodology for a typical Call-off Contract would have been carried out during the Primary Procurement. The purpose of any proposals requested from consultants and its evaluation at the Secondary Procurement stage is therefore not to repeat the Primary Procurement process (as it otherwise dilutes the efficiency gains of the upfront process to establish a Framework Agreement). The Secondary Procurement focuses to fill-in the gaps, based on the specific information of the Call-off contract, and readily put a contract in place.

The procedure for the application of the procurement methods outlined above are the following.

1.1 Competitive proposals (mini-competition)

The Client will prepare a Request for Proposals: Call-off (RFP: Call off) and invite all eligible Consultants holding a Framework Agreement that includes the Services to be procured under the Call-off contract, to submit competitive proposals.

The RFP: Call-off will normally include:

- (a) description of the Services to be provided (Call-off Contract TOR)
- (b) proposal forms
- (c) proposal submission and opening provisions
- (d) evaluation procedures
- (e) negotiations and award
- (f) the award criteria
- (g) reference to the Call-off Contract Terms and Conditions, which are to apply to the provision of services
- (h) *any other relevant information.*

For Experts' positions evaluated in the Primary Procurement and included in the Framework Agreement, Consultants are not permitted to propose remuneration rates, that are higher than the remuneration rates stated in the Framework Agreement, Schedule 2, or as adjusted by the agreed price adjustment formula, if applicable in accordance **with FAP 11**, and any changes in any Laws and Regulations in accordance with **FAP 12**. Consultants are also not permitted to propose reimbursable rates that are higher than the reimbursable rates stated in the Framework Agreement, subject to **FAP 12**.

2. Call-off contract

Following conclusion of successful contract negotiations, the negotiated Call-off Contract is signed by both the Client and the Consultant.

3. Communicating the award of Call-off Contract

The Client shall, at the same time as awarding the contract, communicate the award of the Call-off Contract in the case of:

- a. Direct Selection to all FA Consultants for the services included in the Call-off Contract.
- b. selection based on competitive proposals (through mini-competition) to all Consultants invited to submit proposals.
- c. Any other selection methodology adopted by purchaser, at its discretion, specified in the World Bank Procurement Regulation.

The consultants shall be required to furnish their responses at the time of limited tendering through email.

Any further intermediate communication must be by the quickest means possible, e.g. by email, and include, as a minimum, the following information:

- a. the name and address of the successful Consultant
- b. description of the Services
- c. the contract price
- d. a statement of the reason(s) the recipient Consultant was unsuccessful.]

4. Complaint about award of Call-off Contract

An unsuccessful Consultant may complain about the decision to award a Call-off Contract. In this case the process for making a complaint is as follows::

- a. the complaint shall be made in writing to the Client, by the quickest means available, e.g. email
- b. the Client will address the complaint within a reasonable time

- c. the receipt of a complaint does not prohibit the award of the Call-off Contract, and no standstill period or pause in process shall apply.

Annex 3: Call-off Contract for provision of Services *[this may be the Call-off Contract Form or another acceptable template]*

Dear *[insert name of Consultant's Representative]*,

1. Request for Proposal: Call-off (RFP: Call-off)

With reference to above Framework Agreement (FA), you are invited to submit a proposal in this Secondary Procurement. The Proposal is for the Services described in Annex 1: Client's Requirements, attached to this RFP: Call-off.

2. Price

- (a) Your proposal must be submitted in the format contained in Annex 2: Consultant Proposal Form.
- (b) The remuneration rates for Experts specified in the Framework agreement shall not be higher than the remuneration rates as established in the Framework Agreement, as adjusted by applying the price adjustment formula and any adjustment for change in Laws and Regulations in accordance with the FA provisions.
- (c) The remuneration rates for needed additional Experts (for lump sum contracts, the rates applied by the Consultant to demonstrate the basis for the calculation of the Contract ceiling amount), if any, shall be reasonable considering typically charged rates by consultants in similar contracts.
- (d) The reimbursables rates (for lump sum contracts, the rates applied by the Consultant to demonstrate the basis for the calculation of the Contract ceiling amount) shall also not be higher than the reimbursable rates as established in the Framework Agreement, as adjusted for any change in Laws and Regulations in accordance with the FA provisions.
- (e) The reimbursable rates for any needed additional expenses (for lump sum contracts, the rates applied by the Consultant to demonstrate the basis for the calculation of the Contract ceiling amount), if any, shall be reasonable considering typically charged rates by consultants in similar contracts.
- (f) The price that you propose shall be fixed and shall not be subject to any further adjustment.
- (g) The remuneration rates for experts and reimbursable expenses shall be in the same currency(ies) specified for remuneration rates in the applicable Framework Agreement Schedule.
- (h) The Proposal will be valid for a period of [*insert number of calendar days*]

3. Key Experts

The Consultant is required to prepare its proposal based on the list of Key Experts in the Framework Agreement. Any substitute expert shall have qualifications equal to or better than the originally proposed Key Expert. Any additional Key Expert that may be needed to carry out the Services specified in the TOR: Call-off shall be adequately qualified to carry out the allocated tasks.

4. Clarifications

If you require clarification(s) regarding this RFP: Call-off, send your request in writing (email or hard copy *or through e-procurement system* if available) to our above-named Representative

before *[insert date and time]*. We shall forward copies of our response to all Consultants including a description of the inquiry but without identifying its source.

5. Preparation and Submission of Proposals

The Framework Agreement is included by reference. In preparing its technical proposal, a Consultant may focus on any specific requirements of the RFP Call-off and not necessarily repeat the relevant part of their proposal included in the Framework Agreement unless it needs to be updated.

The Consultant shall ensure that its financial proposal, as described in 2 above, adequately prices the technical proposal.

Proposals are to be submitted in the form attached in Annex 2: ***[insert method as applicable: e.g. by email, through e-procurement system]*** to the following address; [Attention: *[insert full name of person, if applicable]*; **E-mail address: or link to e-procurement system**]

Proposals submitted as email attachments shall be in the form of scanned non- editable images. ***[Include if needed: To facilitate the procurement process, the Client may require copies of the same proposals in other formats (such as in Word or Excel)]***

The deadline for submission of Proposals is *[insert time, day, month, year]* *[A period in the range of two weeks may normally be sufficient at the Call-off stage]*. Please inform us within *[insert number of days]* if you do not intend to submit a proposal.

6. Opening of Proposals

Proposals will be opened on *[insert time, day, month, year]* by the Client's representatives in the presence of the Consultant's designated representatives who choose to attend the opening of the proposals. Minutes of the opening will be shared with all Consultants who submitted proposals.

7. Evaluation of Technical and Financial Proposal

The **technical proposal** shall be evaluated to assess:

- consistency of approach and methodology with the approach and methodology proposed for a typical assignment under the Framework Agreement
- adequacy of the methodology, work plan and organization of the Consultant's team, in responding to the Terms of Reference- Call-off;
- confirm inclusion of appropriate Key Experts that were evaluated as part of the Primary Procurement and other experts as appropriate, included in the Framework Agreement;
- adequacy of the qualifications and competence for the assignment of any substitute and/or for additional Key Experts positions that were not evaluated in the Primary Procurement (not included in the Framework Agreement).
- ***[add other relevant criteria, if any]***

For Consultant/s whose technical proposal/s has been found to be substantially responsive in accordance with the above assessment, the **financial proposal/s** are then evaluated to review pricing in accordance para. 2 above.

Correction of errors in financial proposal: Activities and items described in the Technical Proposal but not priced in the Financial Proposal, shall be assumed to be included in the prices of other activities or items, and no corrections are made to the Financial Proposal.

- **Time-based contracts:** If a Time-Based contract is applied, (a) any computational or arithmetical errors will be corrected, and (b) the prices will be adjusted if they fail to reflect all inputs included for the respective activities or items included in the Technical Proposal. In case of discrepancy between (i) a partial amount (sub-total) and the total amount, or (ii) between the amount derived by multiplication of unit price with quantity and the total price, or (iii) between words and figures, the former will prevail. In case of discrepancy between the Technical and Financial Proposals in indicating quantities of input, the Technical Proposal prevails and the quantification indicated in the Financial Proposal will be corrected so as to make it consistent with that indicated in the Technical Proposal, apply the relevant unit price included in the Financial Proposal to the corrected quantity, and correct the total Proposal cost.

Taxes: For the purpose of the evaluation, the Client will exclude: (a) all local identifiable indirect taxes such as sales tax, excise tax, VAT, or similar taxes levied on the contract's invoices; and (b) all additional local indirect tax on the remuneration of services rendered by non-resident experts in the Client's country. If a Contract is awarded, at Contract negotiations, all such taxes will be discussed, finalized and added to the Contract amount as a separate line, also indicating which taxes shall be paid by the Consultant and which taxes are withheld and paid by the Client on behalf of the Consultant.

8. Negotiations and award

The Client will invite the consultant whose technical proposal is evaluated as substantially responsive and whose financial proposal is evaluated as the lowest evaluated total price for contract negotiations.

- **Availability of Key Experts:** The invited Consultant shall confirm the availability of all Key Experts included in the Proposal as a pre-requisite to the negotiations, or, if applicable, a replacement in accordance with ITC 12. Failure to confirm the Key Experts' availability may result in the rejection of the Consultant's Proposal and the Client proceeding to negotiate the Contract with the next-ranked Consultant.
 - Notwithstanding the above, the substitution of Key Experts at the negotiations may be considered if due solely to circumstances outside the reasonable control of and not foreseeable by the Consultant, including but not limited to death or medical incapacity. In such case, the Consultant shall offer a substitute Key Expert within the period of time specified in the letter of invitation to negotiate the Contract, who shall have equivalent or better qualifications and experience than the original candidate.
-

- **Technical Negotiations:** The negotiations include discussions on the proposed approach, methodology, organization and work plan. These discussions shall not substantially alter the original scope of services under the TOR Call-off or the terms of the Call-off contract, lest the quality of the final product, its price, or the relevance of the initial evaluation be affected.
 - **Financial Negotiations:** The negotiations include the clarification of the Consultant's tax liability in the Client's country and how it should be reflected in the Call-off Contract. As the selection has already considered cost, the total price stated in the Financial Proposal for a Lump-Sum contract shall not be negotiated. In the case of a Time-Based contract, remunerations rates negotiations for the Key Experts in the Framework Agreement or their substitution shall not take place, as those rates and any mechanism for adjustment was already established pursuant to the Framework Agreement. Negotiations for Time-Based Contracts shall therefore focus on any additional Key Expert positions' remuneration rates, if they are much higher than the typically charged rates by consultants in similar contracts.
 - If the negotiations fail, the Client shall inform the Consultant in writing of all pending issues and disagreements and provide a final opportunity to the Consultant to respond. If disagreement persists, the Client shall terminate the negotiations informing the Consultant of the reasons for doing so. The Client will then invite the next-ranked Consultant to negotiate a Contract. Once the Client commences negotiations with the next-ranked Consultant, the Client shall not reopen the earlier negotiations.
9. At the time of Contract Award, the Consultant (including each subcontractor proposed by the Consultant) shall not be subject to disqualification by the Bank for non-compliance with SEA/SH obligations. Prior to Contract award, the Client will verify that the successful Consultant (including each member of a JV) is not disqualified by the Bank due to noncompliance with contractual Sexual Exploitation and Abuse (SEA) /Sexual Harassment (SH) prevention and response obligations. The Client will conduct the same verification for each subcontractor proposed by the successful Consultant. If any proposed subcontractor does not meet the requirement, the Client will require the Consultant to propose a replacement subcontractor.

In this regard, "**Sexual Exploitation and Abuse**" "**(SEA)**" means the following:

Sexual Exploitation is defined as any actual or attempted abuse of position of vulnerability, differential power or trust, for sexual purposes, including, but not limited to, profiting monetarily, socially or politically from the sexual exploitation of another.

Sexual Abuse is defined as the actual or threatened physical intrusion of a sexual nature, whether by force or under unequal or coercive conditions.

"Sexual Harassment" "(SH)" is defined as unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature by contractor's personnel with other contractor's, subcontractors' or employer's personnel.

Appendix A. Financial Negotiations - Breakdown of Remuneration Rates

[To be used for Time- Based Call-off Contracts for additional Key Expert position not envisaged in the Framework Agreement]

1. Review of Remuneration Rates

- 1.1. The remuneration rates are made up of salary or a base fee, social costs, overheads, profit, and any premium or allowance that may be paid for assignments away from headquarters or a home office. An attached Sample Form can be used to provide a breakdown of rates.
- 1.2. At the negotiations the firm shall be prepared to disclose its audited financial statements for the last three years, to substantiate its rates, and accept that its proposed rates and other financial matters are subject to scrutiny. The Client is charged with the custody of government funds and is expected to exercise prudence in the expenditure of these funds.
- 1.3. Rate details are discussed below:
 - (i) Salary is the gross regular cash salary or fee paid to the individual in the firm's home office. It shall not contain any premium for work away from headquarters or bonus (except where these are included by law or government regulations).
 - (ii) Bonuses are normally paid out of profits. To avoid double counting, any bonuses shall not normally be included in the "Salary" and should be shown separately. Where the Consultant's accounting system is such that the percentages of social costs and overheads are based on total revenue, including bonuses, those percentages shall be adjusted downward accordingly. Where national policy requires that 13 months' pay be given for 12 months' work, the profit element need not be adjusted downward. Any discussions on bonuses shall be supported by audited documentation, which shall be treated as confidential.
 - (iii) Social Charges are the costs of non-monetary benefits and may include, inter alia, social security (including pension, medical, and life insurance costs) and the cost of a paid sick and/or annual leave. In this regard, a paid leave during public holidays or an annual leave taken during an assignment if no Expert's replacement has been provided is not considered social charges.
 - (iv) Cost of Leave. The principles of calculating the cost of total days leave per annum as a percentage of basic salary is normally calculated as follows:

$$\text{Leave cost as percentage of salary} = \frac{\text{total days leave} \times 100}{[365 - w - ph - v - s]}$$

Where w = weekends, ph = public holidays, v = vacation, and s = sick leave.

Please note that leave can be considered as a social cost only if the Client is not charged for the leave taken.

- (v) Overheads are the Consultant's business costs that are not directly related to the execution of the assignment and shall not be reimbursed as separate items under the Contract. Typical items are home office costs (non-billable time, time of senior Consultant's staff monitoring the project, rent of headquarters' office, support staff, research, staff training, marketing, etc.), the cost of Consultant's personnel not currently employed on revenue-earning projects, taxes on business activities, and business promotion costs. During negotiations, audited financial statements, certified as correct by an independent auditor and supporting the last three years' overheads, shall be available for discussion, together with detailed lists of items making up the overheads and the percentage by which each relates to basic salary. The Client does not accept an add-on margin for social charges, overhead expenses, etc. for Experts who are not permanent employees of the Consultant. In such case, the Consultant shall be entitled only to administrative costs and a fee on the monthly payments charged for sub-contracted Experts.
- (vi) Profit is normally based on the sum of the Salary, Social costs, and Overheads. If any bonuses paid on a regular basis are listed, a corresponding reduction shall be made in the profit amount. Profit shall not be allowed on travel or any other reimbursable expenses.
- (vii) Away from Home Office Allowance or Premium or Subsistence Allowances. Some Consultants pay allowances to Experts working away from headquarters or outside of the home office. Such allowances are calculated as a percentage of salary (or a fee) and shall not draw overheads or profit. Sometimes, by law, such allowances may draw social costs. In this case, the amount of this social cost shall still be shown under social costs, with the net allowance shown separately.

UNDP standard rates for the particular country may be used as reference to determine subsistence allowances.
