III. FUNCTIONAL REQUIREMENTS:

Underwater remotely operated vehicles (ROVs) can be valuable tools for police organizations, particularly in marine law enforcement, search and recovery operations, and underwater investigations. To meet the functional requirements of a police organization, an underwater ROV should possess certain capabilities and features. Here are some functional requirements for an ROV used by a police organization:

1. Diver Assistance:
 - Ability to assist divers in underwater operations, providing real-time video feeds and communication capabilities.
 - Features like tethers for communication and power transfer to the ROV.
2. Search and Recovery:
 - Sonar capabilities for underwater mapping and locating objects or evidence on the water body floor.
 - Manipulator arms for object retrieval and evidence collection.
 - Payload capacity to handle various equipment or objects.
3. Surveillance and Investigation:
 - High-resolution cameras and imaging systems for capturing clear visual evidence.
 - Low-light or infrared capabilities for night and low-visibility operations.
 - Ability to record and store video and images for evidentiary purposes.
4. Navigation and Positioning:
 - Accurate positioning systems to track and record the ROV's location during operations.
 - Autonomous or semi-autonomous navigation capabilities for efficient underwater exploration.
5. Communication:
 - Reliable and secure communication systems for remote control and data transmission.
 - Encryption and secure protocols to protect sensitive information.
6. Durability and Water Resistance:
 - Robust construction to withstand underwater pressure and harsh environmental conditions.
 - Sealed and waterproof components to prevent water ingress.
7. Depth Rating:
 - Adequate depth rating to operate effectively in the required underwater environments, whether in shallow waters, coastal areas, or deeper offshore regions.
8. Battery Life:
 - Sufficient battery capacity to support extended missions and investigations.
 - Hot-swappable or rechargeable batteries for prolonged use.
9. Portability and Deployment:
 - Easy transportability and rapid deployment from shore or boats.
 - Integration with launch and recovery systems for efficient operations.
10. User Interface:
 - User-friendly control interface for operators, allowing for intuitive maneuvering and control.
 - Integration with remote control stations on boats or command centers.
11. Data Storage and Retrieval:
 - Secure data storage for recorded video, images, and sensor data.
 - Easy data retrieval and transfer to law enforcement databases.
12. Training and Support:
 - Training and certification for operators to ensure safe and effective use.
 - Ongoing technical support and maintenance services.
13. Safety Features:
 - Emergency buoyancy systems to prevent loss in case of equipment failure.
 - Fail-safes and auto-return functions to ensure the ROV can be retrieved in emergencies.
14. Legal Compliance:
 - Compliance with local and international regulations regarding underwater operations and use of technology for law enforcement purposes.
15. Integration with Other Systems:
 - Compatibility with other police equipment and systems for seamless coordination during operations.

PART – C

I. GENERAL GUIDANCE FOR E-TENDERING :

- 1) **Registration of Bidder** – Bidders willing to take part in the process of e-Tendering will have to be enrolled & registered with the Government e-Procurement System through logging on to <https://wbtennders.gov.in>.
- 2) **Digital Signature Certificate (DSC)** – Each Bidder is required to obtain a Class-III Digital Signature Certificate (DSC) for submission. Details are available at the website <https://wbtennders.gov.in>.
- 3) DSC once mapped to an account cannot be remapped to any other account. It can only be inactivated.
- 4) The Bidders can update well in advance, the documents such as certificates, purchase order details etc., under **My Documents** option and these can be selected as per tender requirements and then attached along with bid documents during bid submission. This will ensure lesser upload of bid documents.
- 5) After downloading/getting the tender schedules, the Bidder should go through them carefully and then submit the documents as per the tender document, otherwise, the bid will be rejected.
- 6) **The BOQ must not be modified/replaced by the bidder and the same should be uploaded after filling the relevant columns**, else the bidder is liable to be rejected for that tender. Bidders are allowed to enter the Bidder Name and Values only.
- 7) Bidder, in advance, should prepare the bid documents to be submitted as indicated in the tender schedule and they should be in PDF/XLS/RAR/DWF formats. **If there is more than one document, they can be clubbed together.**
- 8) The bidder has to submit the tender document(s) online well in advance before the prescribed time to avoid any delay or problem during the bid submission process.
- 9) There is no limit on the size of the file uploaded at the server end. However, the upload is decided on the Memory available at the Client System as well as the Network bandwidth available at the client side at that point of time. In order to reduce the file size, bidders are suggested to scan the documents in **75-100 DPI** so that the clarity is maintained and also the size of file also gets reduced. This will help in quick uploading even at very low bandwidth speeds.
- 10) It is important to note that, **the bidder has to Click on the Freeze Bid Button, to ensure that he/she completes the Bid Submission Process. Bids which are not Frozen are considered as Incomplete/Invalid bids and are not considered for evaluation purposes.**
- 11) The **Tender Inviting Authority (TIA)** will not be held responsible for any sort of delay or the difficulties faced during the submission of bids online by the bidders due to local issues.
- 12) After the bid submission, the bid summary has to be printed and kept as an acknowledgement as a token of the submission of the bid. The bid summary will act as a proof of bid submission for a tender floated and will also act as an entry point to participate in the bid opening event.
- 13) **The bidder should see that the bid documents submitted should be free from virus and if the documents could not be opened, due to virus, during tender opening, the bid is liable to be rejected.**
- 14) The bidders are requested to submit the bids through online eProcurement system to the TIA well before the bid submission end date and time **(as per Server System Clock).**
